Internship | Luminar TechnoLab, Kochi

Bachelor of Computer Applications (CGPA: 7.1)

July 2020 - May 2023

Kerala University | SNCT, Kollam

EXPERIENCE

SOFTWARE DEVELOPER - Logicinfeel

- Worked for Logicinfeel (Trivandrum, Kerala) from February to July of 2024, as a software developer.
- Contributed to two significant projects: the first involved developing an automobile service booking application, focusing on creating an intuitive interface for users to schedule, manage, and track vehicle maintenance appointments seamlessly. The second was a Customer Relationship Management (CRM) application designed to help businesses streamline customer interactions, manage data effectively, and improve overall client engagement. Played an active role in both projects to ensure functional efficiency and deliver user-centric solutions.
- Gained knowledge about Codeigniter , PHP and also have worked with Angular.
- Competent in managing databases based on both SQL and NoSQL.

ME(A)RN STACK DEVELOPER INTERN-Luminar

- Completed a seven-month internship at Luminar Technolab in Kochi, Kerala, between June 2023 and January 2024.
- Learned about HTML, CSS, React, Node.js, Express.js, Javascript, and MongoDB
- During my internship, I completed numerous personal projects.
